## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statements filed 2/28/2005 and 7/12/2004 has been considered.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8, 9, and 13-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 - it is unclear to the examiner if "a fixed component" in line 2 is the same "component" set forth in claim 2?

Claim 13 - it is unclear if "again" in line 6 should be --against--.

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-23 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Art Unit: 3735

In line 2 of Claims 1, 11 and 20, "on which an infant is positioned" positively recites the inclusion of an infant which is non-statutory subject matter, "adapted to" language should be considered.

### ***Double Patenting***

Claim 1 is rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,953,427. Although the conflicting claims are not identical, they are not patentably distinct from each other because the pending claims are an obvious broadening of the patented claims by obvious elimination of elements.
